

MEMBERSHIP

The Transnational Alliance to Combat Illicit Trade (TRACIT) is organized as an independent, non-governmental, not-for-profit organization under US tax code 501(c)(6). Membership is open to corporations and select trade associations committed to mitigating the economic and social impacts of illicit trade.

WHY JOIN TRACIT?

Illicit trade has grown well beyond the capabilities of individual governments and individual companies, and now demands a sustained, coordinated response. TRACIT was created to connect and mobilize businesses across industries, sectors and national borders to achieve results more effectively than any single company can accomplish alone.

SHAPING A BUSINESS-DRIVEN AGENDA

Governments create the frameworks and conditions, but it is business that drives the economy. Business must redouble efforts to ensure that policymakers understand business priorities and utilize business know-how.

MORE EFFECTIVE COMPANY ENFORCEMENT EFFORTS

With stronger governance regimes, private sector enforcement and litigation efforts can be radically more effective.

COLLECTIVE MESSAGING

TRACIT's cross sector membership enables a comprehensive and compelling case to governments that the risks and damages of illicit trade are not limited to one product, one sector or a single company.

CONVEYING POLICY PRIORITIES

TRACIT's diverse corporate membership is the respected voice that business needs to convey priorities to government leaders and policy makers.

AGGREGATED RESOURCES AND EXPERTISE

TRACIT provides a vehicle to pool funding and expertise to create a greater critical mass of resources than any single company or sector could do alone. TRACIT's expert Secretariat provides external support to assist members with corporate initiatives and interaction with key IGOs and government agencies.

Opportunities for collaboration

- Contribute to sector workstreams in the areas of Agri-food, Alcohol, Counterfeiting & Piracy, Fisheries, Forestry, Pesticides, Petroleum, Pharmaceuticals, Precious metals & Gems, Tobacco, Trafficking in persons, and Wildlife.
- Contribute to cross-cutting workstreams to reduce vulnerabilities of supply chains exploited by all forms of illicit trade (e.g., transportation channels, digital channels, Free Trade Zones, financial networks and corruption).
